## EXPERIENCE

### Project Engineer

#### Crio do

July 2023 – Ongoing

Bangalore

- Lead gen project focused on sourcing job listings from various portals
- Developed a script that initially took 12 to 14 hours to run, and optimized it using multithreading and other enhancements, reducing processing time to 1 to 2 hours.
- Achieved a significant increase in lead generation efficiency as a result of script optimization.
- Implemented a random timeout method for captcha verification to simulate human-like behavior and avoid detection..
- Collaborated with other developers to create both backend and frontend components of the project.
- Prepared AI in the backend to extract the required years of experience from job descriptions.
- Created a job card component and pagination in the frontend to enhance user experience and optimize performance.

### Web Developer

#### HASHTAG TRENDERS

Freelance

Bangaluru

- Designed and implemented user interfaces for landing pages, focusing on visual appeal and functionality.
- Enhanced user experience through UI/UX improvements, leading to improved engagement and conversion rates.
- Utilized Figma for UI design, ensuring designs were user-friendly and visually appealing

## PROJECTS

### Chat App

Live [GitHub](#)

- Developed a real-time chat application using React, Redux, Socket.IO, Node.js, Express.js, and MongoDB, ensuring seamless communication between users.
- Established a custom Socket.IO server to handle real-time events, including tracking user online/offline status and message delivery with a low latency of 300ms.
- Created custom hooks to streamline complex functionalities, enhancing code reusability and maintainability.
- Integrated a user authentication system using JWT tokens to secure the application and authenticate users.
- Deployed the application on Render, ensuring high availability and scalability.

## ACHIEVEMENT

#### Extra Mile Award (crio.do)

Recognized for exceptional teamwork and problem-solving, collaborating across diverse teams, understanding complex problem statements, and delivering robust resolutions.

#### Technical Expert

Recognized as a technical expert for consistently resolving high volumes of technical issues independently and for others, demonstrating exceptional problem-solving skills and expertise.

#### Quality Expert

Recognized as a quality expert for maintaining a 100% issue resolution rate, demonstrating exceptional attention to detail and problem-solving skills, with zero escalations..

## SKILLS

JavaScript

HTML5/CSS3

DOM manipulation

React.js

Next.js

Typescript

Redux

Node.js

Express.js

Mongoose

JWT

MongoDB

dcryptjs

AWS

Postman

## EDUCATION

### Bachelor of Computer Applications (BCA)

#### Uttaranchal University

Jan 2023 – Ongoing Dehradun, Uttarakhand

Maintained a GPA of 8-9 Actively participated in workshops for networking Seeking web development internships

## FULL STACK DEVELOPMENT

#### Relevel by Unacademy

July 2022 – June 2023

Acquired full-stack development skills with a focus on app development and optimization
